FRIDAY 8th MARCH 2024

www.merridaleangus.com.au

Welcome

What a 12 months!

The seasons have woven an intriguing tapestry throughout the year, presenting challenges and triumphs that have sculpted the essence of our cattle operations. A very dry Spring, a flood in December and another flood in January, with cattle prices crashing down. However, the pleasing thing is that throughout it all, our clients have still received high prices for the cattle they sold, proving good cattle always sell well! The Merridale blood females are certainly sought after with some good prices paid right around the state.

The line up this year certainly hasn't let us down. In the endeavour to produce top quality livestock that we feel will suit both commercial and stud enterprises, there are some amazing new genetics added to our breeding program.

A bull from the States -Three Rivers is a fantastic inclusion. He shows thickness and huge growth. Also evident throughout the catalogue is Rip Wheeler, a bull indicative of tremendous length, structure and incredible temperament. Included also are some of the proven genetics such as Realist, Docklands, Quarterback and Plugger which are all a part of this exciting line up of genetics in this year's catalogue.

I think they exhibit great shape, good hind quarters and an abundance of capacity right through the whole line up.

We wish you every success with your purchases and look forward to hearing about the success and benefits of adding Merridale genetics to your herd

Regards,
Peter & Brodie
